

# Allianz Global Artificial Intelligence

- Access the long-term potential of the rapidly growing artificial intelligence market
- Gain exposure to companies which are exposed or connected to the evolution of artificial intelligence
- Benefit from active management by an experienced investment team

# Allianz Global Artificial Intelligence

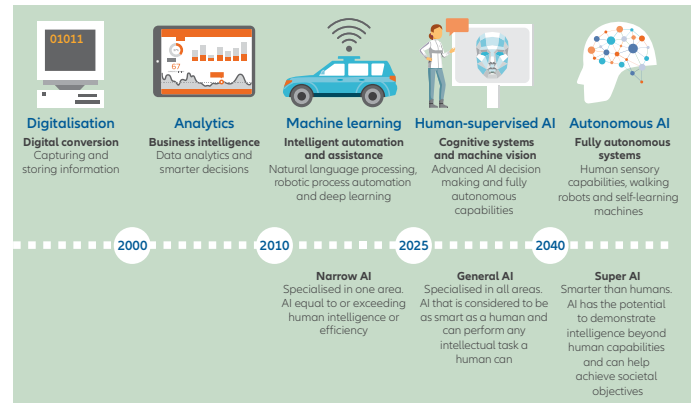

Artificial Intelligence (AI) is likely to be the largest driver of innovation and disruption across every industry.

Going beyond the typical technology index, the Fund invests in stocks across all sectors for innovative companies leveraging AI through a fundamental, bottom-up investment process.

## AI could be the most disruptive technology of the 21<sup>st</sup> century

- AI is set to drive the next significant wave of innovation and automation. We are seeing advances in AI drive major transformation in areas such as Transportation, Finance, Health Care, Manufacturing, and others.
- The potential benefits from AI have led some people to compare its advancement to the next industrial revolution. AI has the potential to disrupt business models, and change how we work and live.

## AI could approach human intelligence in the next 10-15 years

## AI is our future, AI is now

- AI is part of everyday life now. The technological underpinnings of AI are developing rapidly, with seemingly new breakthroughs everyday. We are now training machines to see, hear, navigate, and interact with the environment around them.
- It is important to understand that much of what today's AI is achieving is behind the scenes or merely the start of the journey. These technologies are fueling advances such as intelligent assistants, self-driving cars and medical diagnostics to name just a few.

## AI in our everyday life

## Vast potential benefits for today's world

AI is rapidly advancing and holds significant potential to benefit the economy, society and individuals, transcending its traditional association with the tech industry to drive innovation across diverse sectors.

## Fund Features

### Invests across a broad spectrum of technologies and sectors

The Fund is one of the first AI funds launched that seeks to reap the benefits of this fast-growing market.

AI has the potential to disrupt and transform every industry, being a foundational technology being used by more companies every day. We believe the impact will be profound.

### Actively managed, disciplined approach

We believe that bottom-up, fundamental analysis is key to understanding the companies best positioned to benefit from this disruptive technology.

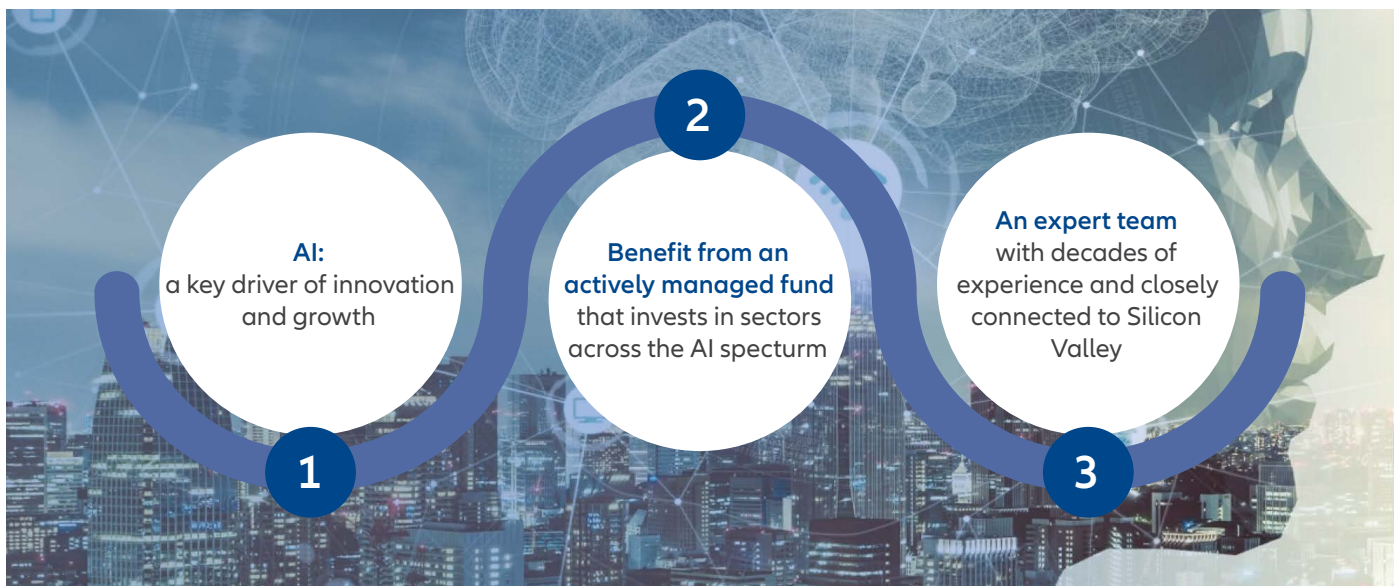

With a consistent and disciplined stock selection process and prudent risk control, the Fund aims to construct a well-diversified portfolio that invests in the global equity market of companies that stand to benefit the most from:

- Deployment of AI infrastructure and secondary enabling technologies critical to the growth of AI
- Development of AI software and applications to make smarter insights and decisions
- Adoption of AI in key vertical business processes to drive AI-enabled industries
