 - also understand and are comfortable with the volatility and risks associated with equity funds.

Please refer to Schedule 1 of the Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a unit trust constituted in Singapore that aims to provide you with long-term capital growth by investing in global equity markets with a focus on equities which will result in a portfolio of investments with a potential dividend yield above the market average when the portfolio is considered as a whole.
- You may receive regular distributions at such frequency as may be indicated for the relevant Class. The Managers will decide whether or not to make such distributions (including the amount and source of such distributions i.e. from income, net capital gains and/or capital) and may consider factors such as market conditions, etc. Distributions from, and capital of, the Sub-Fund are therefore not guaranteed. Distributions out of capital will result in a decrease in the NAV of the Sub-Fund. Therefore, you may receive an amount less than your initial investment amount when you redeem your Units. Such distributions may result in reduced future returns to you.

Please refer to “The Sub-Fund”, “Distribution Policy” and Schedule 1 of the Prospectus for further information on the features of the product.

Investment Strategy

- The Sub-Fund aims to achieve its investment objective by investing in a diversified portfolio of global equities and equity related securities.
- The Sub-Fund will employ a proprietary rule-based equity selection model to identify attractive international investment opportunities. This systematic research driven approach focuses on seeking equities that can be expected to pay high dividend yields to achieve current income from dividends on such

<p>equities. Equity exposure may also be constructed by the use of derivative strategies (e.g. long futures, long call options).</p> <ul style="list-style-type: none"> • For so long as the Units of the Sub-Fund are prescribed capital markets products and EIPs, the Sub-Fund will not invest in any product or engage in any transaction which may cause the Units of the Sub-Fund not to be regarded as prescribed capital markets products or EIPs. • The Sub-Fund may be invested in derivatives for hedging and efficient portfolio management purposes. 	<p>further information on the investment strategy of the Sub-Fund.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The Sub-Fund is a sub-fund constituted under Allianz Global Investors Premier Funds, an umbrella fund. • The Managers are Allianz Global Investors Singapore Limited. • The Managers have delegated the management of the assets of the Sub-Fund to the Investment Manager, Allianz Global Investors GmbH. • The Trustee is HSBC Institutional Trust Services (Singapore) Limited. • The Custodian is The Hongkong and Shanghai Banking Corporation Limited. 	<p>Please refer to “The Sub-Fund” and “Management” of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <ul style="list-style-type: none"> • The value of your investment may rise or fall, and the amount and frequency of distributions are at the sole discretion of the Managers and are not guaranteed. • These risk factors may cause you to lose some or all of your investment. 	<p>Please refer to “Risks” and Schedule 1 of the Prospectus for further information on risks of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • You are exposed to the market risks in the global market place – your investments may go up or down due to changing economic, political or market conditions that impact the share price of the companies that the Sub-Fund invests in. • You have greater exposure to market risks as this is an equity fund – historically, equities have greater volatility than bonds and other fixed income securities. The Sub-Fund’s valuation and the price at which you can exit may correspondingly fluctuate more strongly on a day-to-day basis compared to funds investing in bonds and other fixed income securities. • You are exposed to company-specific risk – the price development of the equities securities held by the Sub-Fund is also dependent on company specific factors, i.e. the issuer’s business situation. If the company-specific factors deteriorate, the price of the specific security may drop significantly and enduringly, possibly even without regard to an otherwise generally positive stock market trend. • You are exposed to exchange risk – the Sub-Fund may hold assets denominated in currencies other than the base currency of the Sub-Fund (i.e. USD) or the reference currency of the relevant Class. Fluctuations in the exchange rates between the base currency of the Sub-Fund or the reference currency of the Units and such other currencies may have an impact on the income and value of the Sub-Fund. The Investment Manager may use currency forwards, futures, options and swap agreements to reduce the currency deviations of the portfolio of the Sub-Fund. The base currency of the Sub-Fund is the USD and not SGD. The reference currency of the Units you invest in may not be the SGD. Unless otherwise indicated, the Investment Manager does not intend to hedge the currency risk of the base 	

currency or reference currency against the SGD. If your reference currency is the SGD, you may therefore be exposed to this currency risk.																							
Liquidity Risks																							
<ul style="list-style-type: none"> The Sub-Fund is not listed and you can redeem only on Dealing Days – there is no secondary market for the Sub-Fund. All redemption requests should be made to the Managers or the approved distributors from whom you purchased the Sub-Fund. 																							
Product-Specific Risks																							
<ul style="list-style-type: none"> You are exposed to derivatives risks – the Investment Manager may use derivative instruments, including options, futures, warrants, forwards, swaps or swap options, from time to time in managing the investments of the Sub-Fund. The usage of derivatives may negatively impact the value of the Sub-Fund and the Sub-Fund may suffer greater losses than if the Sub-Fund had not used derivatives. A Sub-Fund’s use of derivative techniques may not always be an effective means of, and sometimes could be counterproductive to, following the Sub-Fund’s investment objective. You may be exposed to counterparty risk – the Sub-Fund may enter into transactions on over-the-counter markets, which will expose the Sub-Fund to the credit of its counterparty and its ability to satisfy the terms of such contracts. In the event of a bankruptcy or insolvency of a counterparty, the Sub-Fund could experience delays in liquidating the position and significant losses. You are exposed to risk associated with failure to comply with FATCA – failure to comply with FATCA (or any applicable IGA entered into in connection with FATCA and implementing laws and regulations) may subject the Sub-Fund to a 30% withholding tax on certain types of payments made to it (or any penalties as may otherwise be specified) which may cause the Sub-Fund to suffer material loss. 																							
FEES AND CHARGES																							
WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?		Please refer to “Fees and Charges” of the Prospectus for further information on fees and charges.																					
<ul style="list-style-type: none"> You will need to pay the following fees and charges as a percentage of your gross investment sum:

² This figure may change from time to time without prior notice. Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Managers.

<p>HOW OFTEN ARE VALUATIONS AVAILABLE? You may obtain the indicative unit price of the Sub-Fund from the Manager’s website at sg.allianzgi.com. The actual unit price quoted will generally be published 2 Business Days after each Dealing Day.</p> <p>HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?</p> <ul style="list-style-type: none"> You can exit the Sub-Fund at any time by writing to the Managers, either directly or through an approved distributor from whom you purchased your Units in the Sub-Fund. If you do so within the cancellation period of 7 calendar days from time of purchase, you may do so without incurring the sales charge and fees stated above. However, you will have to take the risk for any price changes in the NAV of the Sub-Fund since you purchased it. You will receive the sale proceeds within six Business Days from the time the Managers receive your request to exit from the Sub-Fund. Your exit price is determined as follows: <ul style="list-style-type: none"> If you submit the redemption order before 5pm on a Dealing Day, you will be paid a price based on the NAV of the Sub-Fund at the close of the last relevant market on that Dealing Day. If you submit the redemption order after 5pm, you will be paid a price based on the NAV at the close of the last relevant market on the next Dealing Day.
