<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The Fund is constituted as a sub-fund under the Allianz Global Investors Fund (the “Company”). • The Management Company is Allianz Global Investors GmbH. • The investment management is performed by the Management Company and Allianz Global Investors UK Limited. • The Depository is State Street Bank International GmbH, Luxembourg Branch. 	<p>Refer to “THE COMPANY”, “MANAGEMENT AND ADMINISTRATION”, “Depository” and “Insolvency of the Parties” of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>The value of the product and its dividends and coupons (if any) may rise or fall. These risk factors may adversely impact the net asset value of the product and cause you to lose some or all of your investment:</p>	<p>Refer to “RISK FACTORS” of the Prospectus for further information on risks of the product.</p>

Market and Credit Risks	
<ul style="list-style-type: none"> • You may be exposed to currency risk – the Fund may hold assets or have a share class denominated in foreign currencies. If these foreign currency positions have not been hedged or if there is any change in the relevant exchange control regulations, the net asset value of the Fund or Class may be affected unfavourably. • You may be exposed to emerging markets risk – the Fund invests in emerging markets which are subject to greater liquidity risk, currency risk, general market risk, settlement risk and custodial risk. The Fund is additionally subject to legal, taxation and regulatory risks. • You may also be exposed to general market risk, creditworthiness risk and counterparty risk. 	
Liquidity Risks	
<ul style="list-style-type: none"> • The Fund is not listed in Singapore and you can redeem only on Dealing Days – there is no secondary market in Singapore for the Fund. All redemption requests may only be made in the manner described in the Prospectus. • You may be exposed to liquidity risk – the Fund may invest in illiquid securities which can lead to significant price changes. If an asset is illiquid, there is the risk that it cannot be sold or can only be sold at a significant discount to the purchase price. <p>Your right to redemption may be deferred or suspended under certain circumstances highlighted in paragraphs 9.3 and 12 of the Prospectus.</p>	
Product-Specific Risks	
<ul style="list-style-type: none"> • You may be exposed to derivatives risk – (i) the derivatives may be misvalued or may have varying valuations; (ii) the use of derivatives may not completely hedge the risk intended to be hedged; (iii) derivative may become difficult to sell. In such cases, the Fund may not be able to liquidate a position at an appropriate time or price; (iv) there is also a creditworthiness risk; (v) given the leverage effect embedded in derivatives, even a small investment in derivatives could have a substantial, even negative, effect on the performance of the Fund. • You may be exposed to the risk of a credit long/short equity strategy – the success of a credit long/short equity strategy depends primarily on the selection of fixed income securities as well as on the degree of accuracy in forecasting the future performance of the credit markets. • You may be exposed to the risk of investing in high-yield investments – investing in high-yield investments is normally associated with increased creditworthiness risk, risk of interest rate changes, general market risk, company-specific risk and liquidity risk. • You may be exposed to leverage risk – the use of leverage (based on derivatives) may cause the Fund to be more volatile and subject to higher price movements. • You may also be exposed to company-specific risk, risk of interest rate changes, risk relating to distribution out of capital, commodities markets risk, risk of hedge funds, risk of global macro strategies, risks relating to property-related assets, volatility strategies risk and risk of investing in private equity. • The net asset value of the Fund may likely have a high volatility due to the investment policies or portfolio management techniques employed in respect of the Fund.

APPENDIX: GLOSSARY OF TERMS

Business Day	: Means each day on which banks and exchanges in Luxembourg are open for business. For the avoidance of doubt, half-closed bank business days in Luxembourg are considered as being closed for business.
Debt Securities	: means any security which bears interest, including, but not limited to, government bonds, Money Market Instruments, mortgage bonds and similar foreign asset-backed securities issued by financial institutions, public-sector bonds, floating-rate notes, instruments with loss-absorption features (including, but not limited to contingent convertible bonds), convertible debt securities, corporate bonds, ABS and MBS, as well as other collateralised bonds. Convertible debt securities include, but are not limited to, convertible bonds, bonds with warrants and/or equity warrant bonds. Debt securities also include index certificates and other certificates with a risk profile that typically correlates with the aforementioned assets or with the investment markets to which these assets can be allocated, as well as non-interest bearing securities such as zero coupon bonds.
Emerging Markets	: Means a country which is not classified by the World Bank as a high-income economy (high gross national income per capita).
Equities	: Means all equities and similar securities, including but not limited to, preference shares, convertible preference shares, equity warrants, depositary receipts (e.g. American depositary receipts, global depositary receipts), REIT equities, REIT units, equity linked notes, warrants to subscribe for equities. Equities also include index certificates, equity certificates, other comparable certificates and equity baskets as well as assets whose risk profile correlates with the relevant equity or with the investment markets to which these assets can be allocated.
High-Yield Investment Type 2	: Means an investment in debt securities which at the time of acquisition has a rating of between BB+ and B- (inclusive) (Standard & Poor's and Fitch) or of between Ba1 and B3 (inclusive) (Moody's) or the equivalent by another rating agency or, if unrated, as determined by the Investment Manager to be of comparable quality. In case of a minimum (maximum) investment limit of High-Yield Investment Type 2 securities according to the Fund's investment restrictions, the lowest (highest) available rating of a debt security at acquisition day is decisive for the assessment of the possible acquisition of such debt security as High-Yield Investment Type 2.
Money Market Instruments	: Means Debt Securities and other instruments with short-term maturities (included, but not limited to treasury bills, certificates of deposits, commercial papers and bankers' acceptance etc.) at the time of acquisition.
UCI	: Means an undertaking for collective investment other than UCITS as defined in the UCITS Directive.
UCITS	: Means an undertaking for collective investment in transferable securities authorized pursuant to the UCITS Directive.
Valuation/ Dealing Day	: Means each day on which banks and exchanges in Luxembourg, Germany and the United States are open for business.
